

We look forward to seeing you in June.

Welcome

Welcome and thank you for your interest in Archbishop Mitty Summer School.

Our summer school offers an exciting and diverse curriculum aimed at enhancing any student's education. We offer academic courses for students entering either 7th or 8th grade or high school. Academic classes are designed for students wishing to improve their academic standing or for those wanting to accelerate their present course of study. With our knowledgeable and experienced instructors, along with the depth and variety of our courses, AMHS has created a summer school program that is second to none. We look forward to seeing you in June. Remember to register early as classes will fill quickly.

Archbishop Mitty Summer School

Academic Courses
June 13 – July 21, 2016
8:00 A.M. – 12:00 P.M.
Grades 7-12

Courses

Our academic courses provide students with an opportunity to receive five or ten high school credits, depending on the length of the class. Because of the impacted nature of summer school, parents and students should be aware of the accelerated pace at which the academic courses are taught. In order to take any of the academic courses, a student needs to be at least entering the 9th grade in the fall; *the only exceptions are the Pre-Algebra and Algebra I courses.* We encourage students and parents to call the Summer School office regarding any questions related to course credit, placement, or content. Course directory is the following:

- Algebra I*
- Algebra II
- Biology
- Chemistry
- Contemporary Authors
- Geometry
- Pre-Algebra*#
- Spanish I
- Spanish II
- Trigonometry**

*These courses are offered to 7th and 8th graders.

**One semester only. Class runs from 8 to 12 p.m. for the first 3 weeks.

#Please note that the Pre-Algebra is classified as an enrichment course and students who take this class will not receive high school credit.

New This Summer

Lab Science & Design

This two-week course will allow young scientists to develop their critical thinking skills in the science lab. Students will learn lab safety and basic lab skills and have a chance to design an experiment, gather data, and analyze results. At the end of the course, students will present their findings to the class. Open to grades 7-9.

Spanish I

This is a six-week course designed to review material taught in Spanish I during the regular school year. The first three weeks cover semester 1 and the last three weeks semester 2. Designed for those students who achieved a C- or lower in Spanish I during the regular year and recommended for those who struggled and/or are less confident with their language skills to prepare them for the more difficult level 2 Spanish. This does not replace the regular Spanish I class for Mitty students and does not allow incoming students to advance and test out of Spanish I.

Academic and Tech Enrichment Camps for 5th thru 9th grades

Looking to keep your student's mind active during the summer? Archbishop Mitty's Summer program offers a variety of academic and tech camps such as:

- Hands-On Middle School Math
- Intro to Spanish
- Mock Trial
- Speech & Debate
- Robotics
- Web Design
- Movie Making
- Art

Spaces are limited, so register early.

Take one individually or make a day of it by adding one or more of the numerous camps offered. If you are interested, check out all of our summer camps at www.mitty.com/summer-program.

Transcripts

Non-Archbishop Mitty students will have the opportunity to request the forwarding of Archbishop Mitty Summer School academic transcripts to either his or her home or a school of choice. When registering online, please complete the transcript request section fully and accurately to ensure that the transcript has the student's legal name and correct forwarding address. Transcripts will be sent at the completion of Summer School.

Attendance Policy

Consistent attendance is integral to achieving success in our program. Because courses move at an accelerated pace with each day representing approximately 1 week, students are not allowed to miss more than three days during the entire six-week period and no more than two in any one semester. Additionally, students must be present for the final on the last day of each semester. Any student exceeding the maximum absent days will be immediately dropped from the course and not allowed to return. There are no refunds for dropped students regardless of the amount of school days remaining. Further details about leaving school early and being tardy can be found online at www.mitty.com/summer-program under Policies.

Add/Drop Procedure

Classes must be dropped on or before June 1st. After this date, refunds will not be given regardless of the reason. Refund requests for a dropped class need to be received via email before 11:59 p.m. on June 1st and will only include tuition. Registration fees are non-refundable. Please send any refund request to summer@mitty.com. Classes can be added up to the first day of school.

Fees

Registration	\$200.00
Course Tuition	\$795.00
Impacted Course Tuition	\$995.00
Trigonometry Tuition	\$390.00

Books and School Supplies

Students are responsible for purchasing the books and supplies prior to the beginning of Summer School classes. Detailed information about books and vendors will be sent out once students have registered.

Registration

Online registration begins on March 1st. Please make sure that when registering your student, information is completed thoroughly and accurately as transcripts are derived from these data fields.

Impacted Courses

Many of our courses, such as Chemistry, Biology and Geometry, are in high demand. A waiting list will be created once courses are full. If space becomes available, students will be contacted by phone by the Summer School Office.
